Lately, I've been thinking bout you girl on the daily
And baby, this girl ain't you, and this love ain't true
Girl all I wanna do, is get back to you
I know we had our love and I don't want...
I chose to be with her, said I'm holding on ...
This time we've been apart, with ... in my heart
When I look ... all I see is you

I look in her eyes and you wanna ...
Times with her I smile it's because you are on my mind
No one compares to you, you were right
I'm reminded every time, I look in her eyes

Finally, I know just what I need for my healing
Nothing against the one I'm with now,
What we share is so easily found
I wanna be back with you, back with you
I know we had our love and I don't want...
I chose to be with her, said I'm holding on ...
This time we've been apart, with ... in my heart
When I look ... all I see is you
