I love you
I adore you
I am always missing you
I'm always looking for you
I love you, I love you, I love you, I love you

It's in the way your touch makes me feel so fine
It's in the way your body perfectly fits mine
It's in the way you kiss
Or when you touch my hips
It's amazing to look and to see how your eyes just shine

I hope you feel the same
Or is it just a game ?
I know I did you wrong
Didn't want to do you wrong
I love you, I love you, I love you, I love you

It's in the way your touch makes me feel so fine
It's in the way your body perfectly fits mine
It's in the way you kiss
Or when you touch my hips
It's amazing to look and to see how your eyes just shine

I hope you feel the same
Or is it just a game ?
I know I did you wrong
Didn't want to do you wrong
I love you, I love you, I love you, I love you

It's in the way your touch makes me feel so fine
It's in the way your body perfectly fits mine
It's in the way you kiss
Or when you touch my hips
It's amazing to look and to see how your eyes just shine

It's in the way your touch makes me feel so fine
It's in the way your body perfectly fits mine
I love you.
