"Burning For Metal"

Visit "[Burning For Metal](#)" on MotoLyrics.com

In the early eighties, metal ruled the world
The screams of thousand voices,
the power reigned the earth
Twenty-five years later, something has survived
The metal clans, allied forces
Are back again

Raise your hands
It's a sign

Sue the oppressor, disappear from your sense
Carry on the legacy, immortality

Burning for metal, we are alive
Burning for metal, give the world a sign

This music is power, a pleasure, a lifestyle
You know it all

Now breathe the air, its power
We're burning for metal
Burning for metal
Burning for metal

This song comes to an end,
But our message stays alive
Please keep your belief that metal never dies
We all here are brothers, no matter who you are
The metal clans, allied forces
Are back again

Raise your hands
It's a sign

Sue the oppressor, disappear from your sense
Carry on the legacy, immortality

Burning for metal, we are alive

Burning for metal, give the world a sign
Burning for metal, it's never too late
Burning for metal, join our crusade
We're brothers united, we ride into battle,
Dead or alive, we're burning for metal!
Burning for metal
Burning for metal

Burn, burn - can you hear my call
Burn, burn - there is metal in us all
Burn, burn - standing tall
Burn, burn - we'll never fall

Burning for metal, it's never too late
Burning for metal, join our crusade
We're brothers united, we ride into battle,
Dead or alive, we're burning for metal!

Burning for metal, we are alive
Burning for metal, give the world a sign
Burning for metal, it's never too late
Burning for metal, join our crusade
We're brothers united, we ride into battle,
Dead or alive, we're burning for metal!
