OohÃ,Â...baby OohÃ,Â...baby OohÃ,Â...oohÃ,Â...
oohÃ,Â... Since the day I saw you, baby, I knew you
were for me Always all by myself, I sought your
company All the fellas told me that you played me for a
fool Said I wouldn't hang out, I'd go home right after
school What did I do to you To make you feel this way
You said you'd be my baby Never go away, go away
How could you leave when I need you, baby How could
you leave when I need you, baby How could you leave
when I need you, baby How could you leave when I
need you, baby (OohÃ,Â...baby) How could you leave
when I need you, baby (OohÃ,Â...baby) How could you
leave when I need you, baby (OohÃ,Â...oohÃ,Â...
oohÃ,Â...) How could you leave when I need you, baby
How could you leave when I need you, baby Spent all
my time, baby, just working on my form Trying to
improve myself so I could give you more You told me I
was turning out the way that I should be How could I
know that you would turn your back on me What did I
do to you To make you feel this way You said you'd be
my baby Never go away, go away How could you leave
when I need you, baby How could you leave when I
need you, baby How could you leave when I need you,
baby How could you leave when I need you, baby
(OohÃ,Â...baby) How could you leave when I need you,
baby (OohÃ,Â...baby) How could you leave when I need
you, baby (OohÃ,Â...oohÃ,Â...oohÃ,Â...) How could you
leave when I need you, baby How could you leave when
I need you, baby (OohÃ,Â...baby) How could you leave
when I need you, baby (OohÃ,Â...baby) How could you
leave when I need you, baby (OohÃ,Â...oohÃ,Â...
oohÃ,Â...) How could you leave when I need you, baby
