As I'm walking beside you
There's a feeling disturbing my mind
I'm wondering why I'm here
And I think that you won't forget

Your life is flowing away
Days and seasons are passing by
You struggle to live but you die
Life goes by and you're standing there

WAKE UP!

Break out and live
Cause life won't wait for you

GET UP!

Fulfill your dreams!
Cause you will never live again!

When I'm looking deep in your eyes
I can see you are fighting inside
People just don't understand
They just blame you for what you are
As a friend I am here for you
Take my hand now and follow me
So young and so worn inside
You deserve to be something more

WAKE UP!

Break out and live
Cause life won't wait for you

GET UP!

Fulfill your dreams!
Cause you will never live again!

Just spread your wings
And fly higher
Don't waste your time

You must live now
You must live now
You must live now

Face every day and dare
Just like it was the last
Challenge yourself and be proud to live

Now I'm walking beside you
There's no feeling disturbing my mind
I'm living without your fear
And I guess that you won't forget
You won't forget
You won't forget
You won't forget

Break out and live
Fulfill your dreams
Cause you will never live again
Live again
