Always knew that when we said goodbye
It wouldn't last forever
Always thought that I'd run into you
And we'd get back together

Now you're here
Just like I imagined
Never once did it cross my mind
That you could moved on
You've found someone
It breaks my heart
Coz you're so inlove

[Chorus]
I wish that my touch
Makes you smile just like that
And I wish that I had you
The way that she has
Coz I still remember the love
I left behind
Oh I wish I was her
And you were mine

I think somebody's tryin to talk to me
But I can't hear a word they're sayin
All I can do is stare at you
I dont even know why I'm stayin
Never thought I'd cry to see you happy
Just annoyed that your happiness
Was right here with me

I know it's the rule
It's no use
Still I cant help but feel

[Chorus]
I wish that my touch
Makes you smile just like that (make you smile like that)
And I wish that I had you
The way that she has you (baby)
Coz I still remember the love

That I left behind (I left behind)
Oh I wish I was her
And you were mine

[Chorus]

The way that she has you (oh)
I wish that was me (I wish that was me)
There's no place for me
That I'd rather be (rather be)
Coz I still remember the love
I left behind
Oh I wish I was her
And you were mine

I used to be right beside you (oh no)
Now I'm not even kept inside your heart (oh no)
I put our love upon a shelf
But now it's gone
Coz you belong to someone else

[Chorus]

I wish that my touch
Makes you smile just like that (I wish I was her)
And I wish that I had you
The way that she has you (the way that she has you
babe)
Coz I still remember the love
That I left (I left behind)
Oh I wish I was her (I wish I was her)
And you were mine (oh I wish you were mine)

Oh I wish that were me
There's no place for me
That I'd rather be
Coz I still remember the love
I left behind
Oh I wish I was her
And you were mine

Oh...oooo
