And although it doesn't know how to read or write, well
god damn this thing can lie...
And although it doesn't know that it is not alive, well
god damn this thing can lie...

I built this hot little robot just for myself.

That's when I pulled out all of the batteries
only to find out that it breathes
I built this hot little, hot little robot,
Only to find out, that it hates me

Although it doesn't know that it keeps me up all night,
well
God damn this thing can lie
Although it doesn't know that I keep it close in sight,
well
God damn this thing still lies

I built this hot little robot just for myself

ROBOTS RUINED MY LIFE!

I could never love what was never alive
I could never love what was never alive....
