"Slow Motion Countdown"

How low, how long? Lower than the sea. Too long to go,
too far to even try to reach. And don't you even try to
let it go. While everything around me is breaking down
so slow.

Where will you go when we all fade away? Where is
your silver touch above the sun next to us? So when you
walk outside to see the reasons fall. Do not forget the
light that doesn't make you crawl.

So I just stay at home oh just the saddest news there is
no side to choose. And the numbers grow and push you
down so low. Don't ever let it loose, don't ever let it
loose. Oh wasn't it a long way down, they leave us
behind.

So stay where you are. Don't come around no more. But
it has gone too far I've been asking for you. No I won't
see you call the way the others do. If these are your
prayers I won't follow you through.

When the flame turns blue not even you will lead us
through.

That's why I never go if you see me I move slow. My
heads runs off I spread the bad news where I go. You'll
see the ones that lost their minds into their hole. Like
all your loved ones played the best part of their role.

I can't help you now, when you ask me how I see the
trouble in your way. If you're out of time you just stay in
the line don't ever let it loose. Don't ever let it loose. Oh
wasn't it a long way down, they leave us behind.

So stay where you are. Don't come around no more. But
it has gone too far I've been asking for you. No I won't
see you call the way the others do. If these are your
prayers I won't follow you through. When the flame
turns blue not even you will lead us through.

Don't ever let it loose. Don't ever let it loose. Oh wasn't
it a long way down, long way down.

Not even you will lead us through, when the flame turns
blue.
