Sit down and take a listen a story
That's my confession of how you came into my life
I wasn't sure if I was ready, I didn't think you were here
already
Six weeks before the estimated time
Mom and I were holding hands we didn't think about
the demands
With a tap on my right shoulder I looked up and felt so
much older
You came along and I was there, I never felt so happy
Through all the hardship and despair I never felt so
happy
My baby boy, promise to never make you unhappy
You're my best friend, because you make me happy
And all the times that I screwed up and lost my temper
I hope you haven't given up, we're gonna make up for
lost time
To spend some time together who says it's now or
never
I wanna show the world you're here, you're here and
As you and I walk holding hands we didn't think about
the demands
Having fun and acting crazy, I love you my bouncing
baby
You came along and I was there, I never felt so happy
Throughout the hardship and despair, I never felt so
happy
My baby boy, you're my best friend, because you make
me happy
As you and I walked holding hands, we didn't think
about the demands
Having fun and acting crazy, I love you my bouncing
baby boy
I love you my bouncing baby boy, I love you my
bouncing baby boy
I love you my bouncing baby boy, sleep tight my
bouncing baby boy
