Use some sommon sense for once
Because you take more than you give
Turn a deaf ear on the ones whose problems don't
concern you
Selfish means are not an end, my friend
Selfish means are not an end, time for giving up
Never take the time to listen
It's never in your best interest
Don't have enought humiliation to care about the rest
Selfish means are not an end, my friend
Selfish means are not an end, time for giving up
Built a wall that won't come down, desperation's
common
No time for answers, just stupid questions
Selfish means are not an end, selfish means are not an
end
Time for giving up, this time, this time
Let go of the past and face it
