Gone Tomorrow

Its there today
Its gone tomorrow
Its there today
Its gone tomorrow

Now you see it and now you don't
It just flashes by with a spin and float
You had it all before you had money and girls
Cool clothes, emeralds, rubies and pearls
Shining in the limelight up on the state
Until it all happened at a sonic fast rate
You went shooting down like a ground missile
Plummeting down without no style
Its all over now it is Game Over
No good luck will help you like a 4 leaf clover
But these happen it's the way it will go
You were there today but now you're gone tomorrow

Its there today
Its gone tomorrow
Its there today
Its gone tomorrow

Stars would surround you like a star force field
You have tons of fame like a weapon you could wield
If something was new you would have it first
You were the best but then it all burst
You lost all your money, your girls and your cars
You lost you point of living so you went behind bars
But these happen it's the way it will go
You were there today but now you're gone tomorrow

Your gone tomorrow
Your gone tomorrow
Your yesterdays news
Your gone tomorrow
Your gone tomorrow
Your gone tomorrow
Your yesterdays news
Your gone tomorrow

Eggs thrown at your walls big enough for it all
You getting teeped toilet roll from the stall
Dirty cheese and spitballs winged at ur house
Went from up to down for you now ur a mouse
Boo'd everywhere if your small to be seen
Even if you say something someone will have been
But these happen it's the way it will go
You were there today but now you're gone tomorrow

Your gone tomorrow
Your gone tomorrow
Your yesterdays news
Your gone tomorrow

Its there today
Its gone tomorrow
Its there today
Its gone tomorrow

You got the key to the earth your on top of the world
You got your makeup ready and your hairs been curled
You walk on the red carpet carried on your throne
But then your gonna lose it and then your gonna moan
It's a drag for you for losing your fame and that
But these things happen and dats just dat
You were there today
But now your gone tomorrow

Its there today
Its gone tomorrow
Its there today
Its gone tomorrow

You just face it
You just face it
No 4 leaf clover
Its Game Over

You were there today but now your gone tomorrow
