I can't understand this feeling I get
When you roll your pretty eyes that way
But I thank my lucky stars I guess you still like what you
see

My poor poor heart's got nowhere to go
You looked at me and that's all I know
Got my head in the clouds at the thought of you loving
me

Take a walk with the angels they watch you go by
Any heavenly body would fall for a devil like you

Make it a new day, do it all night
When the music is playing and you're holding me tight
I don't need anything but you to make me feel free

When I'm under the power of your persuasive charms
I've got everything I need in your arms
I don't want nobody but you to be loving me

Take a walk with the angels they watch you go by, yeah
Any heavenly body would fall for a devil like you

No need to run, no need to roam
Move it over mama 'cause I found me a home
You've got what it takes to make life sweet as can be
Can't you see
I can't get enough of the way you keep loving me

Heavenly, heavenly, heavenly

Any heavenly body would fall for a devil like you
