Romance

I'll take romance if I can get it
Give me just one night, you won't regret it
This old world's not ready for me
'Cause I live inside of my fantasy

Romance

I'll take romance 'cause it's essential
It's the quintessential element
L O V E and I'm ready for me
'Cause I live inside of my fantasy

Romance, I know it sounds old-fashioned
But the fashion is a passion with me
By chance of falling in love
I love the feeling passionately

Cockeyed and half the way to heaven
Since she said she'd meet me at 11
This old world's not ready for me
'Cause I live inside of my fantasy

Well, well, well

'Cause I live inside of my fantasy

Romance, I know it sounds old-fashioned
But the fashion is a passion with me
By chance of falling in love
I love the feeling passionately

I'll take romance if I can get it
Give me just one night, you won't regret it
This old world's not ready for me
'Cause I live inside of my fantasy

Elizabeth Taylor did it
