"Go Go Go"

Visit "[Go Go Go](#)" on MotoLyrics.com

I dont wanna see the dance floor vacant
but all my people who are for the movement
front and center we can smash it up right now
im sendin' this one to my generation
live your life like its a celebration
blind the world with a heart that's like a sun,

chorus

We come in Jesus' name but I know,
that you can't say that on the radio
we dont want it soft
we dont like it slow
so go go go.

never ever be ashamed of your light
you're a star in a time of midnight
and everybody's gonna try to put you out,
but they dont understand the way we're living
they think we're foolish for what we believe in
and that might bother me if i cared what they think.

chorus
