"Hold On To Jesus"

Im learning that nothing worth anything is cheap.
Im learning the path is thin and the grade is steep,
and that the altars where we lay ourselves will crack
when tested
and that theres only one that turns our hearts to gold

chorus

Hold on to Jesus
tell Him about everything
your dreams and your troubles
pure hearts desire one thing
and mine is to know You
mine is to break down
and shatter to pieces
and lose everything Ive found

Im finding that Im not who i once thought I was
Im finding Im powerless to obtain Your love
And that the only gifts i bring to You are rags and
failures
through a strange exchange Youve made them myrrh
and gold.
