I was just sixteen,  
And all caught up,  
In the magic of her blue eyes  
She was the girl of my dreams,  
And I wanted so bad  
To ask her if she would be mine,  
Well life can be cruel,  
She left me feeling like a fool  
Picking up all the pieces

Chorus

You don't forget a feeling like that  
It lives in your heart and last forever  
It makes you who you are  
One moment in time is all that it takes  
To suddenly change the world around you  
No you just can't forget  
A feeling like that

Once burned twice shy  
Afraid that love had passed by  
What were the chances we'd meet  
Out of the blue  
With one look I knew  
She was the angel to make me complete  
And with one perfect smile  
And a more perfect kiss  
She took me all the way to heaven

Repeat Chorus

You don't forget a feeling like that  
It lives in your heart and last forever  
It makes you who you are  
One moment in time is all that it takes  
To suddenly change the world around you  
No you just can't forget  
A feeling like that

There are somethings you just can't explain  
Like a rainbow just after the rain  
Like the tears that I cried when you smiled

And told me you were having our child

Repeat Chorus

You don't forget a feeling like that

It lives in your heart and last forever

It makes you who you are

One moment in time is all that it takes

To suddenly change the world around you

No you just can't forget

A felling like that
