Lay your head down on my shoulder  
I won't let the night get colder  
I'll protect you, I'll be keeping  
Trouble far from where you're sleeping  
Until you wake in the morning  
You've got the world in your stare  
Dream on, dream about the world  
You're gonna live in one fine day  
Dream on, spend the night in heaven  
I'll be here till I go away  
Someday tomorrow will smile,  
But little girl in the meanwhile  
Dream on  
You're a princess, chains around you  
I'm the hero who just found you  
Till a brand new day must wake you  
Let your imagination take you  
Go where the music is playing  
But little girl in the meanwhile  
Dream on, dream about the world  
You're gonna live in one fine day

Dream on, spend the night in heaven

I'll be here till I go away

Someday tomorrow will smile,

But little girl in the meanwhile

Dream on

Dream on, dream about the world

We're gonna live in one fine day

Dream on, spend the night in heaven

I'll be here till I go away

Dream on, dream about the world

We're gonna live in one fine day

Dream on...
