

The Offspring

"All Along"

Visit "[All Along](#)" on MotoLyrics.com

You brace and hold it all inside It's more than you can stand
No one around you even tries Tries to understand
Don't turn away x 2 Come out swinging
Come out alone They're in your way x 2 But as long as your swinging
Strong then you'll get by Your pacing's wearing out a line
Right beside your bed The scene replays a million times
Stuck inside your head And though you stand in place
Your mind escapes Read between the lies
Smile's on your face You fake like your O.K.
Don't turn away x 2 Come out swinging Out on your own
They're in your way x 2 You may be stinging But you'll get by
Don't turn away x 2 Come out swinging
Never alone again The pain inside...can guide your way
Midnight...no sleep Your...inside...you scream to No one...hears you...fall
Daylight...prove me...today, day One more try
Don't turn away x 2 Come out swinging
Come out alone They're in your way x 2 You may be stinging
But you'll get by Don't turn away x 2 Come out swinging
Never alone again Pain inside Leads you, leads you through so you'll get by!
