

The Offspring

"Cocktail"

Visit "[Cocktail](#)" on MotoLyrics.com

When building a molotov cocktail,
Don't think of it as "Just a bomb".
Be creative, express yourself
Put a little bit of yourself in each one
But remember kids, safety first.... OK ! lets get started!
Take an empty milk bottle
Full it full with gasoline
Stuff a gassed soap rag into the mouth of the bottle
You cork the top and presto !
You're gonna have a fun-filled night tonight, believe
me
You're gonna be the life of the party,
With this little goodie.
Be safe kids, and have a blast
