Oh take me higher all the way to the sun
down to the whire fightings only begun

It's closing it on you, closing it on you
one from the fire when you're down on you
it's closing it on you, closing it on you
oh you know it all oh oh

I will persevere, I will resist to here
I will leave the fear
I'm not the only son, my will will be done
I'm the scent begun

It's closing it on you, closing it on you
one from the fire when you're down on you
it's closing it on you, closing it on you
oh, you know it all
gonna make it through, gonna make it through

the fight back to like a..cool
closing it on you, closing it on you oh
and know it all oh oh

Don't take me higher I'm waiting the sun
I will persevere I will resist to here
I will leave the fear

It's closing it on you, closing it on you
one from the fire when you're down on you
closing it on you, closing it on you
oh, you know it all oh
gonna make it through, gonna make it through
the fight back to like a..cool
closing it on you, closing it on you
and know it all oh oh
