One is for envy, and one just for spite
The cuts in my heart, they show in your eyes
Don't make it better
The twisting knife turns all by itself onto someone else

Your self-liberation will leave this behind
Beyond swings and arrows, that rain on our mind
Don't make it better
Shake it off, it never mattered anyway

If we don't make it alive
It's a hell of a good day to die
All our lives that shines strong
Only lasts for so long

And it's ashes to ashes again
Should we even try to pretend
Our lives that shines strong
Only lasts for so long

The banner you're waving is burning in red
It's blocking the sunlight, that shines overhead
You against the world
Diamonds and pearls, voices inside the...
Watch the city burn

Your own liberation will leave them behind
On the swings and arrows, there ain't no alibi ???
Don't make it better
Break it 'cause it never mattered, anyway

If we don't make it alive
It's a hell of a good day to die
All our lives that shines strong
Only lasts for so long

And it's ashes to ashes again
Should we even try to pretend
Our lives that shines strong
Only lasts for so long

I won't go down

The banner you're waving, is burning in red
You against the world
Diamonds and pearls
It never mattered, mattered, mattered, anyway

If we don't make it alive
It's a hell of a good day to die
All our lives that shines strong
Only lasts for so long

And it's ashes to ashes again
Should we even try to pretend
Our lives that shines strong
Only lasts for so long

Our light that shines strong
Only lasts for so long
