I'll be your savior, your passionless Christ,  
I'll be the one to give you naughty advice  
Hey pretty baby, why don't you come in,  
There's always room for angels in my den of sin.

I'm your savior, (?)  
I'm your savior, your suffering's mine  
I'm your savior, I'm out of my mind  
I'm just getting a little bit closer to hell all the time

This curse you gave me is weighing me down,  
I keep on falling without making a sound,  
Hey pretty baby, I want to be clear  
A thousand angels but my one is here.

I'm your savior, (?)  
I'm your savior, your suffering's mine  
I'm your savior, I'm out of my mind  
I'm just getting a little bit closer to hell all the time

But now I (?)  
From somewhere deep inside  
I'm resurrecting for you

But now I've seen (?)  
Emotions inside  
We can't keep hiding, there's proof/this truth.

I'm your savior, (?)  
I'm your savior, your suffering's mine  
I'm your savior, I'm out of my mind  
I'm just getting a little bit closer to hell all the time
