Dog's asleep out in the yard
Cat's up on the roof
We're out drinking at the bar
Down each others pants
In the photo booth

Wake me up still dark outside
Talking in your sleep
Something about an open door
And something about cold feet
I think you were asking me
To turn up the heat

Now it's light
So let's take a drive
Lay by the riverside
And I'll
Tell you all about
Your sun-lit eyes

Dog's asleep out in the yard
Cat's up on the roof
We're out drinking at the bar
Down each others pants
In the photo booth
