Turn on my moon child
Let by gones drift on by
And give me your love, child
We'll walk thru the heavens and skies

Next to you, girl, I'm a man of ten feet high
And next to you, girl
I'm about to jump and fly

Well, if you listen hard
I'll tell you what I wanna know

I'll never wanna let you go
You're my good time
You're all mine, my only woman
And I never wanna let you go

Life's just a hard time
A struggle, and maybe I'll get by
You know I'm not a loser
I know I'll come out fine

Next to you, girl, I'm a man of ten feet high
And next to you, girl
I'm about to jump and fly

Well, if you listen hard
I'll tell you what I wanna know

Well, if you listen hard
I'll tell you what I wanna know
