# "Gotta Get Myself Back Home"

Visit "[Gotta Get Myself Back Home](#)" on MotoLyrics.com

I'll be alright in the morning  
When I get myself back home  
I been gone such a long long time  
Gettin' weary bein' on my own

I just got to get myself back home  
Back to the place I know I once belonged

Well I been workin', I'm a river man  
Drivin' down the mighty river bed  
An' after thirty-six days on a? barge  
You know a body gets in need of a friend

I just got to get myself back home  
Back to the place I know I once belonged

My body's achin' and the sun's on my back  
And the captain's really bringing me down  
My woman, she wrote, said she needs me tonight  
And I'm hopin' we won't be long

Well I just got to get myself back home, back home  
You know I got to get back to the place I once belonged

Heyya I've got to get back  
I just got to get myself back home  
Back to the place I know I once belonged  
I know I once belonged  
I just got to get myself back home  
I wanna get home  
Back to the place I know I once belonged
