Ain't no words to this song  
You just dance and hum along  
Said, ain't no words to this song, no  
You just dance and hum along

Now, dance  
Now, come on, hum with me  
Just a little bit loud

Ain't no words to this song  
You just dance and hum along  
Ain't no words, ain't no words to this song  
You see, we didn't have time to write none

Lemme see you dance  
Hey, come on, now, hum with me

Ain't no words to this song, no  
You just dance and hum along  
Said, there ain't no words, no words to this song  
You just dance and hum along

Soul sister, get it  
Come on, y'all, let's hum some

Just a little bit louder  
I said louder  
I said louder
