In a place you only dream of Where your soul is always  
free Silver stages, golden curtains Filled my head,  
plain as can be As a rainbow grew round the sun All the  
stars I've love who died Came from somewhere beyond  
the scene you see These lovely people played just for  
me Now if I let you see this place Where stories all ring  
true Will you let me past your face To see what's really  
you It's not for me I ask these questions As though I  
were a king For you have to love, believe and feel  
Before the burst of tamborines take you there (chorus)  
Green grass and high tides forever Castles of stone  
souls and glory Lost faces say we adore you As kings  
and queens bow and play for you Those who don't  
believe me Find your souls and set them free Those  
who do, believe and love As time will be your key Time  
and time again I've thanked them For a piece of mind  
They helped me find myself Amongst the music and  
the rhyme That enchants you there (repeat chorus)
