Suffering in this silence
I can't take it no more
Cooped up inside this cell
Caged like an animal
I need to see the sunlight
Even for just an hour
I beg of you plz set me free
Get me out of this chamber
I can't take this no more
I never done anything wrong
I never hurt no one

Just get me out
Of this hell in a cell
This steel cage is nothing but bars
Just free me from this hell in a cell
Ohhh
Let me out or I'm doomed
To a life of suffering
When I never committed a thing
Just free me from this hell
This hell in a cell

My rage is burning up
My fears are flying away
I'll escape this so called prison
I'll make it out one day
Ohhh
Stuck inside this chamber
Lying consciously
I wonder what did I do to deserve this
This hell
What did I ever do to get thrown into this

Hell in a cell

Just get me out
Of this hell in a cell
This steel cage is nothing but bars
Just free me from this hell in a cell
Ohhh

Let me out or I'm doomed
To a life of suffering
When I never committed a thing
Just free me from this hell
This hell in a cell

I beg you please
Just let me see the light
I don't want to suffer in this tomb
All I ever see these days
Is darkness
All I ever hear is booming voices
Shouting at me
Please someone free me

Just get me out
Of this hell in a cell
This steel cage is nothing but bars
Just free me from this hell in a cell
Ohhh
Let me out or I'm doomed
To a life of suffering
When I never committed a thing
Just free me from this hell
This hell in a cell

Someone just free me
From this hell in a cell
