(*talking*)

You getting this, it's live in the beat

Dude it's O.G. Ron C, turn it up

Ha-ha, it's Rasaq boy yeah

[Rasaq]

When I tip down I chunk the deuce, sipping on a cup of juice

Screens hanging from the roof, realest nigga in the booth

Flashy nigga in the coupe, diamond display on my tooth

Leather seats up on my cheek, feeling like a butt massuse

Niggaz rap like Dr. Seuess, talking down like they the truth

Niggaz ain't even feeling you, they trying to get a ounce and move

Low pro's around my shoes, 4-4's around my dudes

Make the wrong move for my jewels, and my niggaz'll down you fools

Boys talking plenty noise, when they come around they crew

Do my dirt all by my lonely, black on black with 22's

Who you know that break a stack, spend it all and make it back

Most niggaz from around the way, sell dope and hate to rap

Niggaz think they thugged out, cause they hair is braided back

Till I hit you lay you flat, you's a trick I say you whack

Northside my habitat, play with me I ain't having that

Boys is like them Air Force Ones, mid-top I'm staying strapped
