Come and stop the masquerade, uncover your
disguise
You don't need to be afraid, the truth will make you rise
I'm aware that I'm not God, I'm just a messenger
But no matter what you want, you have to pay the price

Il salvatore, il salvatore (the saviour, the saviour)
A truthful heart is the greatest victory
Il salvatore, il salvatore
The choice is yours, I'm the saviour

I'm not here to take your life, I'm here to save your soul
Let the music be your light that'll lead your way back
home
I'll forgive you for your sins if you'll believe in me

Il salvatore, il salvatore (the saviour, the saviour)
A truthful heart is the greatest victory
Il salvatore, il salvatore
The choice is yours, I'm the saviour

He can save you if you let him
He can save your life today

Il salvatore, il salvatore (the saviour, the saviour)
A truthful heart is the greatest victory
Il salvatore, il salvatore
The choice is yours, I'm the saviour
I'm your saviour
