[(I can't control it, she's taking over)
Yeah!] x2

I'm so about it and I don't know
why I feel like I need to get real, real close
So in the moment, so in the zone
and I'm ready to go

The way you move your body, can't stop looking at you
There's something so hypnotic 'bout it making me lose,
control... over and over!
Yeah

[Everything that you do - you do - you do,
baby, it's like voodoo - voodoo - voodoo] x2

You've got me just right where you want
Some kind of trance - don't know what - what - what's
going on
You *** upon me like ***
and I'm ready to go

Does she know *** it's getting into my brain
and I keep coming back from *** again and again?
It's intensive; I just can't resist it, no!

[Everything that you do - you do - you do,
baby, it's like voodoo - voodoo - voodoo] x2
(Everything that you do - you do - you do
Voodoo - voodoo - voodoo)

[(I can't control it, she's taking over)] x4
Ohhhhh...!

[Everything that you do - you do - you do,
baby, it's like voodoo - voodoo - voodoo] x4

[(I can't control it, she's taking over)] x4.
