[Chorus]

Ron Isley's sample "For the Love" *different variations*

"For the love, for the the love, well, well, well"

Shit is lovely

[Ras Kass]

I rock Versacci, sippin VSOP and Hennessey in foam cups

Motorola flips with illegal chips

Strippers with, measurements of 38-24-36 with DSL's but money talks ESL

While every cell in my trunk experiences mitosis

I gross this cream like Altima

So after I catch wreck nigga call FEMA

I mean I wouldn't claim to be phat if I thought a nigga could serve me

But I've never been seen like Cole's big bitch Big Shirley

on Martin, a human wonder drug

I put that on everything I love

[Chorus]

[Ras Kass]

I watch the sun set west

Wear a V-S1 on my chest, in Compton play milk

While in between two breast and a yeast infection

And laid up bumping an ugly girl

I'm on some Kurtis Blow shit as if I Rule the World

But without the jheri curl

Strictly short natural hair steelo

So I go to rob a joe Next Episode like Chino

Rap tracks the super macks 150 Lexolution

I'm serving each sentence concurent til execution

Got niggaz running down the street buck naked cause on the mic I'm like Luke

Eradiction connection like Power Rangers flavors

Aside from my promiscuous sexual favors to my neighbors spouse

I'm D-MC without Run, so when you be illing

You be getting this dick in your mouth

So grab your Champagne glass and let the Moet flow
I serve love like John Mcenroe

[Chorus]

[Ras Kass]

Trying to blow up like Pretty Toney without the loss of a
limb

Not by selling trim but by the way I sell flem

Spitting game like Chick Hearn, listen, learn and
recognize

I killed away more niggaz camphore than spermicide

So stop cock blocking me with all that jealousy

Cause playa hating is a street code felony

I got a pocket full of C-notes and food stamps

Just big bills and free meals baby so lamp

Sport DKNY when I'm flossing

but still buy my T-Shirts and socks from the Slausson

Swap meet

and I rock beats without baking soda

God don't like ugly but shit is lovely

[Chorus]

[Outro]

I'm a give a shout out to my niggaz

WesternHemis

Nigga Xzibit

Organized Konfusion

Mistic Journeymen

Saafir, my nigga

I-27
