Uh, yeah, Eat or Die

I've sprayed myself through band to not win

I done did too much good to not sin now

It's like the good die young, yeah

'Cause everything innocent is suffocated 'cause the street's militant

Me, I'm just passing the time

About to splash in the lime

Oh I'm like every other nigga with a mask and a nine

I've just mastered the rhyme

Notice the sledgehammer dawg I'll just crashing your spine

My pencil got subscription to guns and ammo

Homeys in L.A and N.Y. got dunce and fammo

And we break bread, break niggas off, break a bitch

2006 I don't break-dance, eat a dick, I'm on some grown man shit

I'm about that CREAM, face on my Jacob looking like a flat screen

White wife-beater, bubble gums soul on my white NIKE Jeter's

I don't like Peter, got mink covered mink, how stupid is that?

It's about as stupid sniffing coke and hustling crack nigga

These niggas ain't 'BUILT FORD TOUGH', I'm bored shitless

They not spitting; they just blowing kisses

This is...crack muzik and after my mac lose it

Stack the rocks and stone hands like black drew it

I'm 'LOST', drink like Michelle Rodriguez

Ain't a nigga signed to UNSIGNED who could see this

Yeah, y'all could hype and he might do numbers

But locked up, he's soft dawg, he might wash unders

To get it right, not now but right now

Put your mouth on the curb bitch and bite down

(Outro) 'American History X' movie sample:

Derek Vinyard: I'ma teach you a real lesson now

motherfucker
Put your fucking mouth on the curb
Lawrence: Come on man
Derek Vinyard: Put it on the curb right now!
[Lawrence bites onto the curb]
Derek Vinyard: That's it!
Danny Vinyard: Derek, no!
Derek Vinyard: Now say good night
[Derek stomps Lawrence's head into the curb]
Derek Vinyard: Motherfucker!
[Police sirens]
Police Officer: Drop your weapon. Put your weapon on
the ground
Put your hands up. I said get your hands up. Now turn
around
Put your hands behind your head. Get down on your
knees right now!
