Featuring 210 West

My life consist of bunch past right and flowin'  
Future CEOing T-bone ultimate fighter millionaire  
match maker  
Studio rat maker, pilgrimage to the booth  
With a cute exotic girl with a bottom with sun 80 proof  
Some with a lube, and she's just bringing me food  
But for some reason I keep giving her attitude  
And I wonder why they even put up with a nigger when I  
get my move  
So let's get it construed, if you a lil confused I'm a  
intrigued dude  
Alot of these niggers is bitches shouldn't be getting  
dick with a mule  
Somewhere in a TJ donkey show  
Man evolve from primate, still see alot of monkeys  
though  
Yo , monkey see monkey do  
Monkey get a ranch and try to fuck it up for you too bro  
I spit it how I see it, got a frog in your throat  
You can crop like Aaliyah rock the boat with that  
But in the end we all leave her , the earth  
I mean we trying to make real spit through a speaker  
210 west that I caught up the 134  
Arguing with some dirty hoe  
I met in north hollywood a little earlier before  
Reminded me to catch up with my nigga sip you heard  
And I know my boss like pyrotechnics  
And that's why pi rules and creeps respect it  
Even in hip hop who you claim to dope  
Ain't doppest motherfucker must've slain a goat  
Soul is sold to the devil to remain a note  
'Cause if you asked him about Ras that's all she wrote  
nigga
