Brother sister look at me  
Another monster fucking freak  
Empty visions after me  
Shattered mirrors imaging

I am braking into pieces  
Dreams can't take this anymore

This isn't life, no, not even close  
It's just a formula to get ashore  
Why did you give me the will to glide?  
And then deny me of my skies...

I am braking into pieces  
Dreams can't take this anymore

I will never throw away  
Keys that open doors to my  
Dreams so thirsty to come true  
You're my flight

Decievingly quiet, getting so close  
So are volcanos 'till they explode  
I will rape my visions on you  
'Till you get that i am your truth

I don't wanna be wanna be fucked up like you  
I don't wanna be wanna be like you  
I don't wanna give myself to something like you  
I don't wanna end up so boring like you  
I don't wanna be fake
