(Pete Seeger) Oh, had I a golden thread And needle so fine
I'd weave a tapestry Of rainbow design Of rainbow design
Far over the water I'd weave my magic strand
To every city Through every single land Through every
land And in it I would weave the bravery Of women
giving birth In it I would weave the innocence Of
children over all the earth Children of all earth Show my
brothers and my sisters My rainbow design And bind
up this sorry world With hand and heart and mind Hand
and heart and mind O had I a golden thread And
needle so fine I'd weave a tapestry Of rainbow design
Of rainbow design
