They feedin' off of my energy  
But I grew up off that do or die listen to me to me  
Give a fuck about you could give a shit about anything  
I remember who was down when I didn't have anything

#### Chorus

My enemies around, around, around  
The world is turning 'round, around, around  
So here we go around, around around  
My enemies around, around, around

You say you hotter than hennessey  
Don't talk about it be about it we gonna really see  
When you' runnin' from a silver bullet stray from yo  
enemy  
They don't wanna see you win or make your legacy  
history

#### Chorus Repeats

You never given me anything  
But a bunch of lies and scrutiny expecting the best of  
me  
It's funny how the tables turned and now I've got  
everything  
Befriended everyone I know 'cause you want to get to  
me  
My enemies... (guitar solo)

They feedin' off of my energy  
But I grew up off that do or die listen to me to me  
Give a fuck about you could give a shit about anything  
I remember who was down when I didn't have anything

#### Chorus Repeats

You believe the words you say, you know you weren't  
down  
'Cause you believe the words you say, you know I won't  
stay down

'Cause I don't give a fuck

Chorus Repeats
