Walking in place  
We wave the smoke out of our face and then we see  
you  
Hellos and goodbyes  
The door still shuts in our eyes and we still leave you

And all that is hoped for is after this while girl  
I hope that you smile when you're singing  
After the smile's gone and after this time girl  
Lord after this while, will you see me?

Turn to your friend  
and then we'll ask you again if it was alright  
around some other bend to some other end  
on some other night

And all that is hoped for is after this while girl  
I hope that you smile when you're singing  
After the smile's gone and after this time girl  
Lord after this while, will you see me?
