S.DAY)

Go! Into gear and drive me outa of my mind.
I got a screaming tiger engine,
That takes me where I wanna go.
You got me flying in a highway,
Taking off away we go.
I know this time,
I aint ever gonna be the same.
Into gear and drive me outa of my mind.
I got the devil in the back seat in a blue dress,
And she kicking up her heels.
I got a jesus christ telling me,
His personality crisis is for real.
I know this time,
I aint ever gonna be the same.
Into gear and drive, you drive me crazy!
I got the conscience in my head,
A gone and talking mean and moral being.
Hilarity is singing and Im laughing,
Til I'm bursting at the seams.
I know this time,
I aint ever gonna be the same.
Now I am pulling the buttons,
Off the wall, with my teeth.
Into gear and drive,
You drive me crazy.
Death is on the dash,
A try and tempting fate in every scene.
Everything about you,
Makes me wanna ball and scream.
I know this time.
I aint ever gonna be the same
