I woke up in the mornin', I'm still flat on my back  
Couldn't move a muscle like I had a heart attack  
The night was wild and woolly  
Didn't think I'd make it through it  
'Cause lovin' you's a dirty job  
And I'm the man to do it  
Lovin' you is a dirty job, lovin' you is a dirty job  
You put me through the ringer and hung me out to dry  
You licked me off your fingers just like a piece of pie  
You break my heart in pieces  
But I've got the glue to glue it  
Girl lovin' you's a dirty job  
And I'm the man to do it  
Lovin' you is a dirty job, lovin' you is a dirty job  
Lovin you is a dirty job  
Girl lovin' you's a dirty job and  
I'm the man to do it  
I'm gonna hold you till the end of time  
I'm gonna love you 'cause it's now or never  
I'm gonna kiss you till I make you mine  
Lovin' you is a dirty job, lovin' you is a dirty job  
I'm gonna hold you till the end of time  
I'm gonna love you 'cause it's now or never  
I'm gonna kiss you till I make you mine  
Lovin' you is a dirty job, lovin' you is a dirty job  
Lovin you is a dirty job  
Girl your love is thicker than mud  
And you're trying to drag me through it now  
Lovin' you is a dirty job, lovin' you is a dirty job
