Once we said  
Now it's true  
Your dreamin what's to think  
Then you'll break  
That causes you  
You're dreamin what's to think  
Then you'll pray  
That all is true  
A diamond on the loose  
We'll make your noose

Ratt madness  
Ratt madness

Feel your weight  
Worth its gold and nobody knows  
Feel that silver  
It's not that you're what's to think  
Then you'll break  
That causes you to  
A diamond on the loose  
Will make your noose

Ratt madness
