At fifteen you wanted someone to call your own  
Sweet sixteen, you couldn't see straight  
You couldn't let go  
Now you're eighteen and you barely make a sound  
You're getting older, a little bolder  
You're in the lost and found

All the way you say you'll take me  
Any day you'll never break me

Slip slip  
Slip of the lip  
I like the way you move your hips  
Loose lips  
Sink ships  
The way you move, you don't miss

I said I told ya, I'll get to know ya  
We're goin' all the way  
Move over, I'm gonna hold ya  
To everything you say

And now I've showed you baby everything's okay  
When I hold ya and when I show ya  
You're gonna want to stay

All the way you say you'll take me  
Any day you'll never break me

Slip slip  
Slip of the lip  
I like the way you move your hips  
Loose lips  
Sink ships  
The way you move, you don't miss

Slip slip  
Slip of the lip  
I like the way you move your hips  
Loose lips  
Sink ships  
The way you move, you don't miss

Slip

All the way you say you'll take me  
Any day, well, nothing to say  
You're so bad, your reputation  
You know it's all the same  
It's just a game

Slip slip  
Slip of the lip  
I like the way you move your hips

Loose lips  
Sink ships  
The way you move, you don't miss

Slip slip  
Slip of the lip  
I like the way you move your hips

Loose lips  
Sink ships  
The way you move, you don't miss

Slip slip  
Slip of the lip
