If you're listening...
And we go round and round
Life is just a moment in time...

(Slim Kid3)

I recall being three when Sunny passed away one of the
greatest
in my eyes till this very day too young to understand
but
understood the ways of good and evil life and death
was in the
breath of times fate and God only knows that kept
Peggy
straight cuz in the very next year my Aunt Dorothy was
the late,
more beautiful than the word it was like killing a
mocking bird
She was so young like the new year was all you heard
almost
saw it so clear the good times that we had when my
momma showed me pictures life wasn't so bad I got
baby sat
by Pat when Bedie was a small guy and in our cousins
eyes we
were both small fries, Jazzywazzys growing up to be a
big girl
now
Father figure understands a man might like her profile
I let sink in a while and told let 'em like ya style both
you
and Ebony I be damned if this short life ain't heavenly
peace
and harmony family season and it goes...

And we go round and round
Life is just a moment in time...
