[Slim Kid3]

I guess everybody needs somebody to love you can't
leave love lonely cause being naive to it you can just
lose it like that See kisses for bruises don't make it
heal back it be'z the sex appeal that's from the next
and not necessarily the sex and one might appeal to
the intellect having a greater affect on how they feelin'
stimulation breakin down their shields for the real and
as it stands mysteriously curiosity it kills the cat and
offsets them mentally so they're trapped in behind
these fantasies with no action searchin for a remedy
now she loves her man but there is just a different type
of chemistry that flairs when her desires on fire quick
is the fuse anotha loves for hire

[x2]

And she said...
It'll be good if you stayed with me tonight
so I granted her wish

[Fatlip]

I was high like the vocal tone of my nigga Bootie Brown
decided to take a ride to see what's really goin' down
up on
the northside of town Of course I bought a quarter
pound
of bomb hemp feelin' a-ight like Johnny Kemp on a
Friday
night Lookin' right cuz' my shit is tight blazin' blunts to
city
lights on Sunset and Crescent Heights Bounce to the
House
of Blues then I slid in free wit tennis shoes, sweatshirt,
jeans
and no ID. Soon as I step inside the plizace I recognize
the
fizace of an epp wit an izass more amazin' than grace
So
I waste no time to kick my little I say "How ya doin'" she
say
"I'm doin' fine" so I commence to mackin to baby to see

what's crackin So maybe I get her back at the cabin and
start attackin Threw back a shot of yack and started
jabber
and jibben Fibbin and adibin just to get her to my crib
then
We was chillin on the bed bumpin some Isley thought I
was
about to spread the thighs but she surprised me when
she
said "oh like that? You know I don't get down" I know
my
homies gonna clown cause I let her stick around when...

She said...
It'll be good if you stayed with me tonight
so I granted her wish

[T. Hardson]
Now Daddy's home but she's been waitin all night so
we
could be all alone This is an everyday thing so we hang
out
by the phone tryin to build something real Working tips
to
the bone so much loves gone astray that it won't be
comin
home no time soon So I dance with the silhouette
beneath
the moon and she said if satisfactions guaranteed
nothin
else could come between the flight of a new love babe
Yeah
maybe we could be cool instead of sharin' this here
ship
with the fools... you know ? (that) ... Right now... right
now...
right now... right now... baby... Right now... right now...
right now... baby... and she said
I'll give you the world if you want
it I'll give you the world if you need it baby
