"Living For Today"

Visit "[Living For Today](#)" on MotoLyrics.com

I won't live my life
filled with doubt and fear inside
Don't hear a word the newsman says
Some men wait for kingdom come
I'm happy when my day is done
History will ?...

We're just living for today (um huh)
We're just living for today (ahmmm)
We're just living for today
We're just living for today

My dog don't know his own ?
It seems like pretty good advice
He's like an old man breaking ?
No more intellectuals,
just ?... after all
living out there open ??

We're just living for today (alright)
We're just living for today
We're just living for today
We're just living for today

We tried givin' peace a chance
The only thing that's wrong with that,
we've been at war, since I was born
Ancient Rome has come and gone
A lesson there for all of us
What will we do with all we know?
Yeah, with all we know

We're just living for today
We're just living for today
We're just living for today
We're just living for today
