"So Beautiful"

Visit "[So Beautiful](#)" on MotoLyrics.com

You and I were lovers once upon a time
Now we're both believers in leaving all behind
Did you ever hear the words I meant to say
Or did I wait one too many days

When it's all forgotten please remember me
We went all or nothing we just couldn't see
If nothing else makes sense until we realize
We just have to open up our eyes

It's all so beautiful especially when it rains
It's all so beautiful when nothing stays the same
And in an ever changing world some things never do
As time goes marching on
It's still my love for you
