What is the weather in Cincinnati
What is the time in Tokyo
Who is this little child's daddy
And who the hell here needs to know?
Why do memories of you linger
When I'm tryin' to reach my goal
And why must I move my fingers
To the music in my soul
I don't know
And I don't have to know
And here I go

[Chorus]
'Cause I got all the answers
Right here in my hand
And I got all the answers
And I don't have to understand
'Cause I got all the answers
Think I'll rummage through the centuries
While I listen to the sea
Oh it's good to be so free
So free
Here in the 21st century

Who was the mayor of Chicago back in 1964
Why did Shakespeare create Iago to tear apart a love
so pure
How can my dreams be so vivid in a psycho sonic way
And why must I become so livid about the news I hear
today
I don't know
I don't have to know
And here I go

[Chorus]
'Cause I got all the answers
Right here in my hand
And I got all the answers
And I don't have to understand
I got all the answers
Think I'll browse on through the tabloid news

While I sip my tea
Oh, it's good to be so free

[instrumental]

I'd never ever have to be alone
I can do it all right here in my home
Everything that's ever been known
I can punch it up right in my phone(ring)
Freedom train coming soon
Right here in my living room
From Baton Rouge
To Saskatoon
And all points in between

[Chorus]

'Cause I got all the answers(all the answers)
Right here in my hand(all in my hand)
And I got all the answers(all the answers)
See I don't have to understand(don't have to
understand)

I got all, I got all, I got all, I got all, I got all, I got all the
answers
All the answers, oh yeah.

I, got every book and every magazine

I'll tell you what I'm gonna do, I'm gonna find the
capital of Peru
Or the latitude of Katmandu, yeah
I'm gonna Google it
'Cause everybody's doin' it
Then I'll rum-rum-rum-rummage through the century
To find my American ideal
My American ideal
'Yall remember to vote, yeah
Last-night I voted for my favorite
She's alright, she looks good and sounds, hmm mm

-Natalia (:
