There's something wicked out there
We feel it in the air
It whispers, 'Come and find me if you dare.'

We sense disaster lurking
Must save the neighborhood
This monster must be stopped for good

Chorus:
We're munks on a mission
We'll keep on searchin'
Munks on a mission
Whether by day or moonlight
Munks on a mission
We'll keep on lurkin'
Munks on a mission
Making it safe out at night

We see the full moon rising
We hear the howls at night
But you remain out of our sight

We hope we're getting closer
We don't know what's in store
But clues are leading to your door

Chorus x2
