Emptiness hold my hand and join me here tonight  
Let me be your friend  
Let's look at girls in fights  
Let's get drunk  
we've got nothing to lose tonight  
Give it away  
It's ours so give it away its alright

Could it be that my situation does that it suddenly  
seems like the world is coming down on me  
I must try and find substance or sense and stability

Don't eject  
It just can't be that hard  
Don't eject  
Change event  
It just can't be that hard to change event

I tend to forget that thoughts reflect my words  
I better contemplate  
Cause words reflect my actions in which some relate  
Those I need  
In those I need to depend  
No escape  
I better contemplate it's alright

Could it be that my situation does that it suddenly  
seems like the world is coming down on me  
I must try and find substance or sense and stability

Don't eject  
It just can't be that hard  
Don't eject  
Change event  
It just can't be that hard to change event
