In the middle of time  
Everyone asked me why  
I said goodbye. I don't  
Know how much longer I  
Can hang on to myself.

I am slipping away in my fear  
Do I have a choice to stayy?  
Or am I lost to the plague that  
Takes us all one day? Can I help myself  
Find a way to stay?

I wish I could feel the pain,  
Instead of waiting in vain  
I can't believe I'm slipping  
Away. Down below... where I belong  
No more song!

I am slipping away in my fear  
Do I have a choice to stayy?  
Or am I lost to the plague that  
Takes us all one day? Can I help myself  
Find a way to stay?

I can't feel the pain I know I'll  
Feel soon; I can't live my life  
Without worrying that I wont make it.  
Down below. Far away. in the dark I lay!

I am slipping away in my fear  
Do I have a choice to stayyy?  
Or am I lost to the plague that  
Takes us all one day? Can I help myself  
Find a way to stay?
